

Silver Creek Metro Park

An attractive venue that features water recreation, horseback riding and a touch of local history.

Silver Creek Metro Park was created in 1966 from land that was originally part of the Harter Family Dairy Farm. The park's Silver Creek Lake is a focal point, and the center for a multitude of water-based recreational activities.

Equestrians will enjoy the beauty of the park's bridle trail. And history lovers can examine the Harter family barn, parts of which date back to the Civil War era, that continues to stand on the property.
